# Sage Intacct Visual Boards for Hotels

**Visually explore real-time operational data to gain critical insights**

The Sage Intacct acclaimed suite of cloud financials gives hotel operators, complete control and visibility into the range of financial metrics that matter. But what about the underlying operational metrics that drive those numbers? Sage Intacct Visual Boards for Hotels gives you real-time visual access to your operational data, so you can uncover key insights. Sage Intacct helps you get—and stay—ahead of competitors, identify threats and opportunities, and improve your operating efficiency.

Sage

### **The hotel metrics you want and need**

**we speak your language**—Visual Boards for Hotels understands the intricacies of hotel operations—like average daily rate (ADR), RevPAR and RevPOR, average daily rates, occupancy rates, room-night revenue, and more.

**Instant insight across dimensions**—See RevPAR by year by hotel. Or chart ADR vs. last year by booking source. Or add more dimensions like nationality, booking channel, room type, region, entity, property, and property type.

**Drill down to the details**—When you find areas to investigate, just click to dive deeper into granular details and get the answers you need about your operations.

### **Your operational data visualized**

**More than 30 Chart Types**—Present your data in any of dozens of graphs, charts, and interactive visualizations.

**Complete formatting**—Use bolding, color-coding, and fonts to highlight important results.

**Built-in AI functions**—Visual Boards sifts through the data using sophisticated AI functions such as clustering, outliers, trend lines, forecasts, and more.

**Tell your story**—You can build and reuse narrations with real-time data to make faster decisions with confidence. And share your story through Sage Intacct Dashboards or use third-party exports to PowerPoint, Excel, CSV, or PDF.

### **No IT skills required**

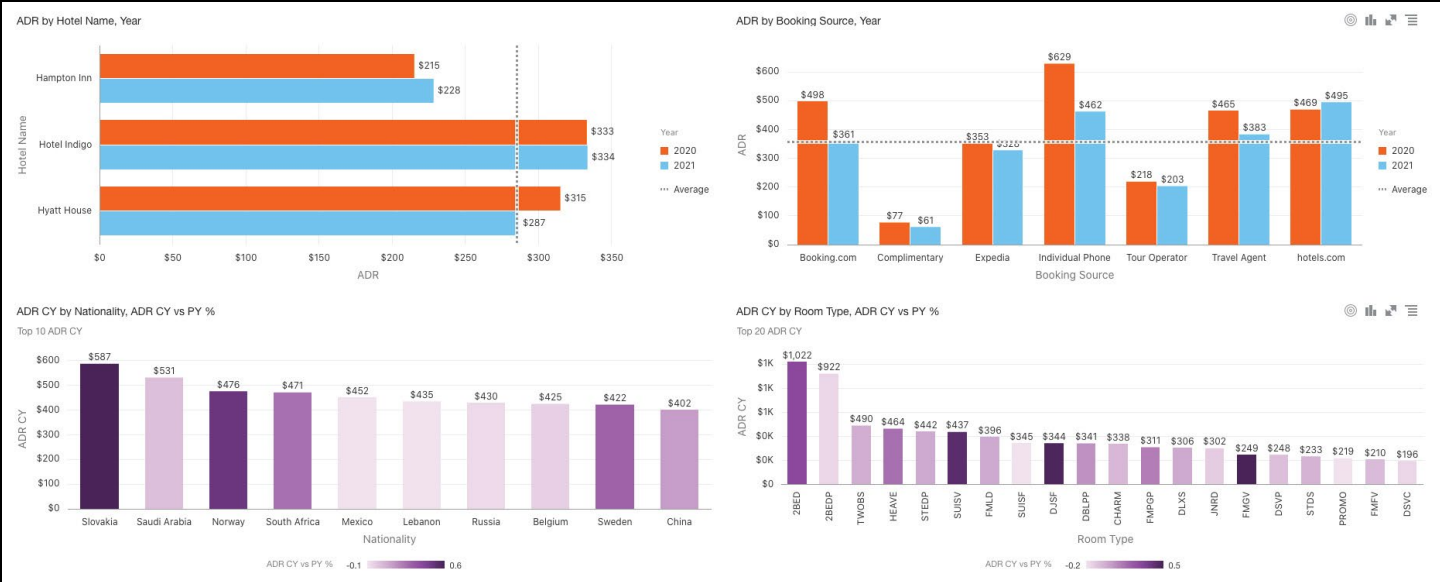

**Pre-built portfolio**—Start immediately with our library of dozens of pre-built Visual Boards that display the many metrics that matter to hotel operators—using your real-time operational data.

**Drag and drop custom visualizations**—There's no programming language to learn. Just choose your parameters, dimensions, attributes and measures to see your operational data the right way—your way.

**Integration with your operational systems**—Sage Intacct aggregates all your data from your property management systems, human resources systems, payroll applications, and more—all of which can feed your visualizations in Visual Boards.

**Calculations made easy**—Use any of the predefined calculations or create your own to see room nights and net revenue for specific slices of your business. Explore any dimension or periodicity.

“Every time we encounter a complexity, we quickly find there’s a way to solve it with Sage Intacct. If we have to accommodate consolidations with 10 layers of partnerships, we don’t worry about whether Sage Intacct can handle it because it’s so easy to use.”

**Brett Atkinson**, SVP Finance  
Benchmark Global Hospitality
