

iMetal Stainless Steel

Software for Stainless Steel Service Centers

At Equation Technologies: We understand your needs and products - to provide solutions:

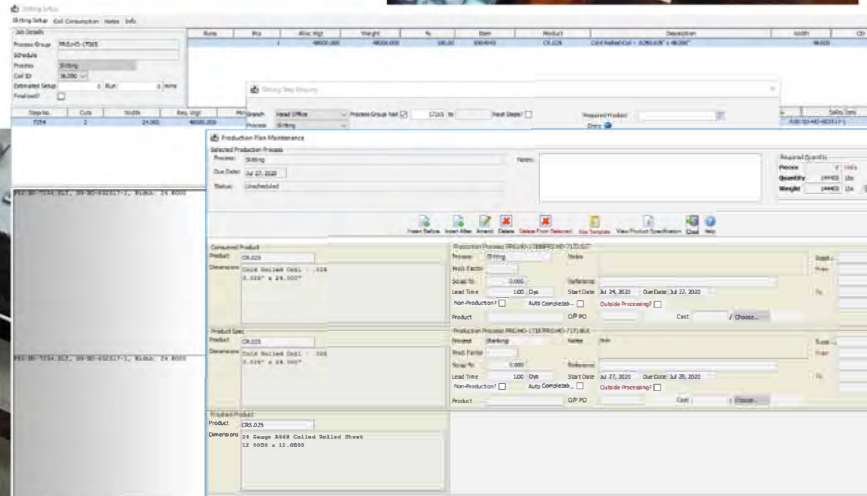

Aluminum and Stainless Steel might look a lot like Aluminum, but they are very different. There are many but the following are 10 key differences:

1. Cost - Aluminum is more expensive than stainless steel
2. Strength to Weight - Stainless Steel is stronger but Aluminum is 1/3 the weight
3. Thermal Conductivity: Aluminum is a much better conductor of heat.
4. Electrical Conductivity: Aluminum is a good conductor of electricity, stainless is not .
5. Corrosion resistance - Stainless adds nickel , manganese to reduce corrosion.
6. Work-ability - Aluminum is soft and easy to work with. Stainless is harder.
7. Welding - Stainless is much easier to weld than Aluminum.
8. Food - Stainless reacts less to food than aluminum.
9. Heat resistance - Stainless has high thermal properties , above 400 degrees aluminum softens.
10. Strength - When weigh is not a factor Stainless is far stronger

iMetal Complete Stainless Steel Solution

- Sales Quote / Order CRM
- Toll Processing
- Inventory Control
- Purchasing / Stock Forecasting / Planning
- Production / Multi Stage / Outside Processing
- Production Planning with Time EST vs Actual
- Multiple Specifications / Certifications
- Physical / Chemical Properties
- Shipping / Dispatch
- Full Traceability
- Inspection / Quality Assurance / Tolerance Docs
- Multi Language / Multi Currency
- Optimization modules
- Extract data and documents

Benefits to your organization

- Reduce data entry and duplication of efforts
- Faster access to truly accurate information
- Lower operation and inventory costs
- Increase efficiency and productivity
- Forward looking management.
- Respond effectively to situations

Additional Processing

- Shearing
- Embossing
- Cold Reduction
- Annealing
- Temper Pass
- Oscillating
- Edging

31% Infrastructure cost savings average vs onsite

62% More efficient IT infrastructure management vs on premises

Our customers don't care how much we know, until they know how much we care.

Our client facing team members have many years of experience working in and supplying the metals sector with functionally specific software. Our consultants are focused on delivering results with minimum cost and maximum attention to detail, ensuring you get a return on your investment, not just a good-looking set of screens.

Equation Technologies and Jonas Metals work together to bring a complete ERP solution by combining Sage Intacct's best-in-class financial management with iMetal's game changing industry functionality in the USA, Canada, and the United Kingdom.
