Sage Fixed Assets Network Edition 2015.2	3

How to find the system requirements

Below instructions are from the user manual for Premier Depreciation.

Note: On item 4 - it is not a PDF file, it is an HTML page.

Verifying Your Computer's Equipment

For information on the minimum system requirements for operating the application, please refer to the System Requirements documents on the Sage Customer Portal.

Follow the steps below to access the installation & administration guide for your application.

To access the system requirements

1. Point your browser to the Sage Customer Portal at <https://customers.sagenorthamerica.com>.
2. Click the Logon link and enter your Customer Logon information. The system opens the Sage Fixed Assets portal page.
3. Click the Sage Fixed Assets - Downloads/Updates link. The system opens a web page with downloads for system requirements, Sage Fixed Assets products, and their installation guides.
4. Click the Download link for the appropriate System Requirements document. The system opens the PDF file. You can print the document or save it to your computer.
