

Sage 300: Payroll Update

Effective January 2016 Sage will exclusively support Payroll version 7.2. Support for previous versions will be discontinued, and tax updates for these versions no longer released.

Q: Which versions of payroll will no longer be supported?

A: Support for Payroll 6.0, Payroll 7.0, and Payroll 7.1 and any previous versions will cease in January 2016.

Q: Does this apply to both, the US and Canadian Payroll?

A: Yes, it applies to both

Q: Will Sage continue to provide tax updates for previous versions of payroll?

A: Effective January 2016, Sage will only provide tax updates for Payroll version 7.2.

Q: Which versions of Sage 300 are compatible with Payroll version 7.2?

A: Sage Payroll 7.2 is compatible with Sage 300 versions 2012, 2014, and 2016 (when released in the fall).

Q: Is Payroll 7.2 going to be “backwards compatible” with older versions of the Sage 300’s system manager?

A: Yes, Payroll 7.2 will be backwards compatible with System Manager 2012, 2014, and 2016 (when released in the fall).

Q: What does this mean for customers currently using Payroll version 6.0?

A: Customers on Payroll 6.0 will need to upgrade their entire system and all modules to be compatible with Sage Payroll 7.2.

Q: When is the last tax update for Sage Payroll 6.0 going to be released?

A: The last update for Sage Payroll 6.0 will be released in July 2015 for Canadian Payroll, and in September 2015 for US Payroll.

Q: What does this mean for customers on Sage Payroll 7.0 and 7.1?

A: Customers on Sage Payroll versions 7.0 and 7.1 simply need to upgrade their payroll module.

Q: When is the last tax update for Sage Payroll 7.0 and Sage Payroll 7.1 going to be released?

A: The last update for Sage Payroll 7.0 and Sage Payroll 7.1 will be in September 2015.

	Last tax update available	Action required
Sage Payroll 6.0	September 2015	Upgrade to Sage 300 or higher and Sage Payroll 7.2 before the end of 2015
